

High-volume document shredders: maximum performance to meet high expectations.

Entry width 400 mm

Waste collection volume 160 litres

Wattage 1650 watts

Strip cut

Convenient swivel casters with brake for reliably keeping the document shredder firmly in place

Carries the GS Intertek test mark

- User-friendly document shredder for large volumes
- Unique DAHLE CleanTEC® filter system
- User-friendly DAHLE Safe Technology safety package with permanent paper volume detection capability, automatic acoustic shut-down function and integrated oil tank on all models providing cross-cut shredding
- · Clearly designed, user-friendly control panel
- Electronic start-stop function
- Convenient automatic reverse function
- · Convenient feed and reverse function
- · Automatic motor cut-out
- Energy-saving sleep mode after 10 minutes at idle and automatic shut-down after 30 minutes
- High-quality solid-steel cutters
- · Powerful motor
- · Extremely quiet operation
- Separate CD feed and waste container
- High-quality wooden cabinet
- Wide-opening doors
- Convenient swivel casters
- Separate main switch
- IEC power connector
- 11 strong waste bags included
- Dimensions (H x W x D): 960 x 734 x 511 mm

Unique DAHLE CleanTEC $^{\circ}$  filter system

Energy-saving sleep mode after 10 minutes at idle and automatic shut-down after 30 minutes

Extremely quiet operation for a particularly pleasant working atmosphere

Permanent measurement of paper volume ensures uninterrupted shredding.

35-year warranty on the cutters

German Engineering by Dahle

Standardised entry widths take all common paper sizes

Separate main switch is located on the rear of the document shredder and completely disconnects it from the mains power supply

Detachable IEC power plug makes the document shredder quick and easy to move from A to B

Convenient swivel casters providing 5 cm floor clearance for greater mobility and two brakes for reliably keeping the shredder firmly in place at the point of use

Pull-out rounded top frame that's kind on the fingers when changing the waste bag

Wide opening door to easily empty the waste

Separate, integrated waste boxes help to sort shredded paper, CDs, DVDs, cheque and credit cards for eco-friendly recycling

Modern design blends into any working environment.

Separate feed opening for CDs, DVDs, cheque and credit cards guarantees reliable shredding of optical, magnetic and/or electronic data

Clearly structured, user-friendly control panel indicates when the fine dust filter needs changing

Paper quantity sensors prevent the document shredder from starting if too much has been fed in to avoid paper jams

Environmentally-friendly filter is easy to change. A signal on the user-friendly control panel indicates when the fine dust filter needs changing

Environmentally friendly filter is made of special 3-ply, fully recyclable non-woven material

Unique DAHLE CleanTEC® filter system filters and effectively binds fine dust particles to create a better indoor environment.

Clearly labelled performance characteristics on the top of the shredder help to ensure correct document shredder operation

Automatic acoustic shut-down system with integrated microphone immediately stops the document shredder in an emergency in response to a call for help or knocks to the casing,

Paper quantity sensors prevent the document shredder from starting if too much has been fed in to avoid paper jams

Clearly designed, user-friendly control panel permits easy, self-explanatory operation with illuminated symbols and acoustic signals

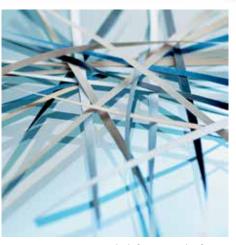

Powerful fan sucks in fine dust particles inside the document shredder and feeds them to the filter

High-quality, solid-steel cutters in special steel for a guaranteed long service life

P-2 security: recommended, for example, for data media containing internal data that are to be made illegible
